ABOUT US

Triveni Solar renewable energy industries private limited is a pioneering and leading solar company in India with 25 years of solar excellence. Triveni Solar provides top-notch solar energy solution Triveni Solar believe that solar energy is an integral part of our ecosystem, and harnessing it intelligently is the key to a Solar Revolution, which is the need of the hour. As non-renewable energy resources continue to deplete, Triveni power is dedicated to ushering in a sustainable future by championing Solar Energy as the primary source of power.

The Best Solar Company : Harnessing Solar Power for a Sustainable Future

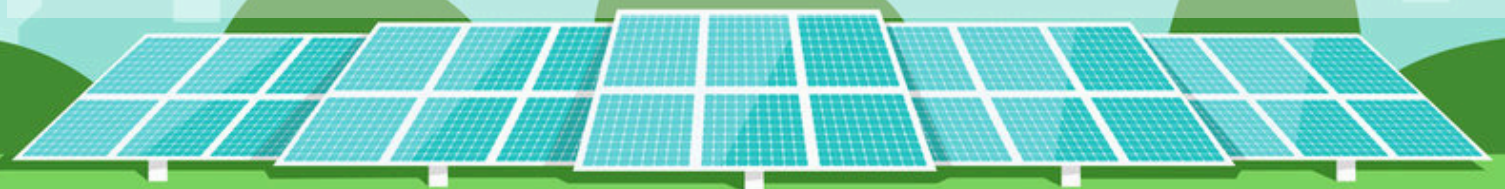

Solar energy is a rapidly growing industry, and its importance cannot be overstated in today's world. The need for clean and renewable energy sources has become increasingly crucial as we strive to combat climate change and reduce our carbon footprint. India, has seen significant growth in solar energy adoption, with more residents and businesses realizing the benefits of harnessing the power of the sun. Triveni power is the best solar company that specializes in solar plant and panel installations and is empaneled with government agencies like UPNEDA and MNRE for providing subsidies to customers

OUR MISSION

Our mission is twofold: to reduce dependency on coal and deliver powerful solar solutions to every household in India. We tirelessly work day and night towards this objective, aiming to create a better, cleaner India. By offering highly customized and meticulously engineered solar plants at cost-effective prices, our goal is to not only reduce exorbitant electricity bills but also diminish our collective Carbon Footprint. We envision a society where sustainable energy is the norm, and we're dedicated to making this vision a reality with the support of our community and the people we serve.

OUR VISION

Our vision is a future where every home in India is empowered by clean, renewable solar energy. Triveni power is committed in making this vision a reality by providing affordable, top-quality solar solutions. Our dedication to innovation, technical excellence, and environmental responsibility drives us to be at the forefront of the solar revolution in India. We aim to create a brighter and more sustainable future for all, where coal dependency is a thing of the past, and solar power is readily accessible to everyone.

PM SURYA GHAR , PM KUSUM YOJANA

PM Surya Ghar - Muft Bijli Yojan

Central Government Subsidy (Central Financial Assistance)

The Central Government comes with a very lucrative subsidy scheme for residential consumers which is only available for grid-connected solar rooftop projects. For other sectors such as government, institutional, social, commercial, industrial, etc. central financial assistance is not available.

State Government Subsidy for the residential sector

Uttar Pradesh Government will provide a subsidy of Rs 15,000/kW to a maximum of Rs 30,000, which will be over and above the Central Government Subsidy provided.

SUBSIDY

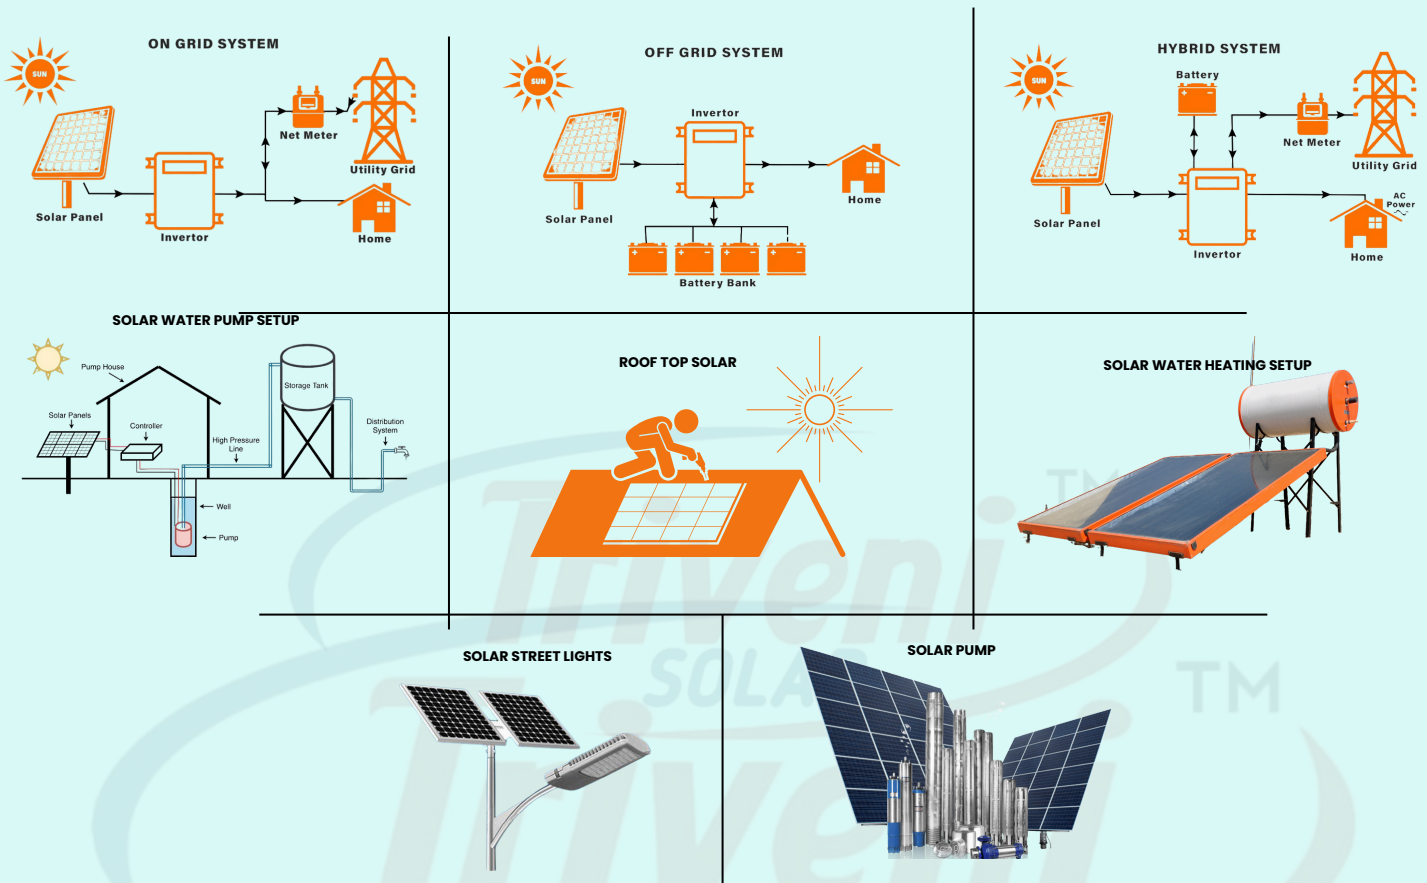

2 KW- ₹90,000/- 3-10KW- ₹1,0,8000/-

PM-KUSUM (Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan) Scheme.

This scheme provides financial support for farmers to install solar pumps and power plants. CFA of 30% of the benchmark cost or the tender cost, whichever is lower, of the stand-alone solar Agriculture pump will be provided. The State Government will give a subsidy of 30%; and the remaining 40% will be provided by the farmer. Bank finance may be made available for farmer's contribution, so that farmer has to initially pay only 10% of the cost and remaining up to 30% of the cost as loan. In case the State Government provides subsidy more than 30%, the beneficiary share will reduce accordingly.

Products To Sell & Install with 25 Years Earning

How we do our project Execution ?

► Site Visit

We make sure our client gets all the information on the very first day of our visit with the POA of our work.

► Design & Documentation

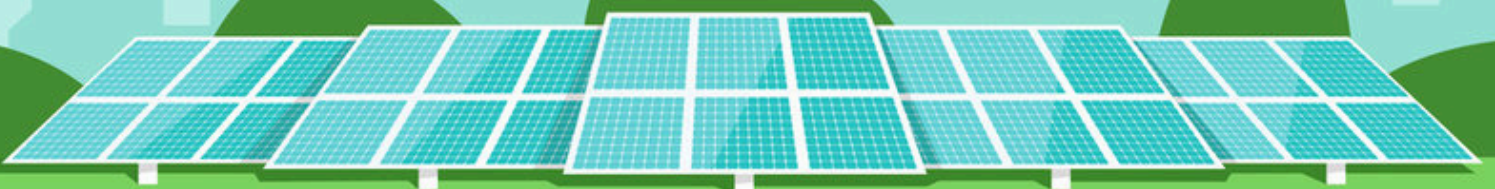

Making a clear review about the way the whole project will look like & net metering Process.

► Fabrication & Installation

A complete frame of GI with bolts & nuts for better strength & installation according to the SLD with proper chain of Strings & Series.

► Commissioning & Net Meter

Final step when the entire Solar system ready to connect with Net Meter.

Why You Should Start Solar ?
